

Welcome to the Register of Surveys, Research and Evaluation Projects (ROSREP)

ROSREP is a UK-based online register of surveys, research and evaluation projects. It includes both published and unpublished projects (including Masters and PhD projects) irrespective of their methodology or sample size. ROSREP aims to provide an overview of music therapy research activity within the UK, as well as provide BAMT members and the public (including service-users, policy-makers and funders) easy access to surveys, research and evaluation projects.

What projects can be registered:

- **Surveys:** Any survey which was/is open to UK music therapists to participate in can be registered. Both UK-based or international surveys are welcome.
- **Research and Evaluation Projects:** Any research or evaluation project which has taken place within the UK and/or has been led by UK music therapists can be registered.
- **Masters and PhD Student Projects:** Any research or evaluation project which has been led by Masters and PhD students within the UK can be registered.

ROSREP is developed using **Microsoft Excel**. This provides users with a range of **search** and **sort** options.

ROSREP is organised in 4 different excel sheets (**see and click below**):

- **ROSREP (General List)**
- **Surveys**
- **Research**
- **Evaluation**

The 'General List' sheet provides a quick overview of all the registered projects, while the other sheets provide fuller information about each relevant projects.

Register of Surveys, Research and Evaluation Projects (ROSREP)
General List

Researcher(s)	Affiliated Institution(s)	Title	Keywords	Project type	Related publications	Start date	End date (estimated)	ROSREP ID Number	Short Project Description	Email	
Chambers, Carol	University of Nottingham, Department of Music	Song and Metaphoric Imagery in Forensic Music Therapy	song; words; narrative; imagery; metaphor; forensic; women; behaviourism	Research (PhD)		Jun-05	Jun-05	P1-PSP	Available	carolch@open.ac.uk	
Abrahamovic, Zita	Vilnius Pedagogical University, Social Communication Institute (Lithuania)	Music therapy in the social integration of adult people affected by epilepsy	social integration; epilepsy; music therapy; capabilities; approach	Research (PhD)		Jan-10	Dec-13	P2-PSP	Available	zita.abramovic@ed@gmail.com	
Biggok, Katy	Guildhall School of Music and Drama	There is the music therapy - Company or a crowd? An exploration of the impact of involving parents in their children's music therapy	children; family; dynamics; parents; role of the music therapist	Research (MA)		Oct-10	Apr-09	P3-RMSP	Available	katy.biggok@yahoo.co.uk	
Crampton, Jane	University of West of England	Exploring the experiences of volunteers in group music therapy sessions with people with dementia - in relation to the Mindsong project 2007	dementia; music therapy; music therapy and dementia; volunteers; Mindsong project; phenomenology	Research (MA)		Jan-08	Mar-09	P4-RMSP	Available	janecrampton@uwe.ac.uk	
Grady, Margaret	University of West of England	What are the effects of singing or song in music therapy for people experiencing dementia? A systematic literature review	music therapy; dementia; singing; song	Research (MA)		Mar-08	Dec-08	P5-RMSP	Available	maggie.grady@btinternet.com

Smith, Hannah	Guildhall School of Music and Drama	Music Therapy and Music Therapists in Palliative and Bereavement Care: Defining, Negotiating and Understanding Professional Roles	music therapy; palliative care; bereavement care; hospice; role; training	Research (MA)		Jan-11	Apr-11	P7-RMSP	Available	hannah.smith@bnu.gom.ac.uk	
Myatt, Polly	Guildhall School of Music and Drama	What is Community Music Therapy and how does it differ from what has been termed 'consensus model' music therapy?	community; music; therapy; consensus; model; profession	Research (MA)		Feb-11	May-11	P8-RMSP	Available	pollymyatt@gmail.com	
Leith, Helen	Aalborg University (Denmark)	Music therapy and the resettlement of women prisoners with non-psychotic mental health problems	women prisoners; mental health; trauma; resettlement; self-harming; challenging behaviour	Research (PhD)		Nov-10	Oct-14	P9-PSP	Available	h.leith@lum.aau.dk	
McDermid, Finlay	Queen Margaret University	How can collaborative composition in a community music therapy setting contribute to well-being?	community music therapy; collaborative composition	Research (MA)		Feb-11	May-11	P10-RMSP	Available	finlaym@qmu.ac.uk	
Pathybridge, Emma	Anglia Ruskin University	Evaluating rating scales and other measurement tools used in music therapy. A detailed study of methods used to measure changes in children with severe and complex needs	music therapy; severe and complex needs; measurement tools; evaluation; rating scales	Research (MA)		Oct-09	Mar-10	P11-RMSP	Available	emypath@popmail.com	
Streeter, Elaine	University of York	Computer Aided Music Therapy Evaluation: Investigating and Testing the Music Therapy Logbook Prototype 1 System	music therapy; evaluation; computer; computational music analysis; neuro-disability	Research (PhD)	Streeter, E. (2010) Computer-Aided Music Therapy Evaluation: Investigating and Testing the Music Therapy Logbook Prototype 1 System. PhD thesis, University of York. (Available on http://etheses.whiterose.ac.uk/1201/)		Jul-10		P12-PSP	Available	ea33@york.ac.uk
Walter, Grace	Roehampton University	Working with the Impact: An exploration into the Impact Countertransference has on the Cotherapy Relationship	music therapy; group work; co-therapy; relationship; impact; countertransference	Research (MA)		Feb-11	Jun-11	P13-RMSP	Available	grace.walter@roehampton.ac.uk	
White, Becky	Anglia Ruskin University	A music therapy group for children with autism and learning disabilities: An exploration into shared experience	Music Therapy; Autism; Learning Disabilities; Group Work; Shared Experience	Research (MA)		Sep-10	Apr-11	P14-RMSP	Available	beckywhite@ar.ac.uk	
Derrington, Philippa	Anglia Ruskin University	An Investigation into the Effectiveness and Value of Music Therapy with Young People, Aged 11-15, at Risk of Under-Achieving and Exclusion	youth; exclusion; under-achieving; emotional and behavioural difficulties; education	Research (PhD)		Sep-09	Aug-12	P15-PSP	Available	phderrington@ar.ac.uk	
Zubala, Ania	Queen Margaret University	Evaluation of Arts Therapies for Depression	arts therapies; depression; mood disorders; adults; art psychotherapy; music therapy; dance movement psychotherapy; dramatherapy	Research (PhD)		Oct-10	Sep-13	P17-PSP	Available	ania.zubala@qmu.ac.uk	
Parry, Gillian et al.	University of Sheffield, Centre for Psychological Services Research	ADAPT - Understanding & Preventing Adverse Effects of Psychological Therapies	failed or harmful therapy	Survey (UK)		Nov-11	May-12	P18-SUK	Available	alexw.foster@sheffield.ac.uk (Alexw.Foster)	
O'Kelly, Julian	Aalborg University (Denmark)	The development of an evidence-based music therapy treatment for low awareness states	music therapy; stimuli; low awareness state; neurophysiological; assessment	Research (PhD)		Nov-10	Nov-13	P19-PSP	Available	o.kelly@lum.aau.dk	
Hunter, Mark	Queen Margaret University, Edinburgh	The use of technology in enabling clients to reaccess their therapeutic process outside music therapy sessions	therapeutic process; re-engaging; re-accessing; technology; C.D.; effects; recording	Survey (UK)		Jan-12	Feb-12	P20-SUK	Available	mark.hunter@qmu.ac.uk	
Carr, Catherine	Barts and the London School of Medicine and Dentistry, Queen Mary University of London	Modelling of Intensive Group Music Therapy for Acute Adult Psychiatric Inpatients	group music therapy; acute; inpatients; mental health; process research	Research (PhD)		Mar-11	Feb-14	P21-PSP	Available	c.e.carr@qmul.ac.uk	
Smith, Cerita	Guildhall School of Music and Drama	Exploring the experiences of music therapists who have worked without harmonic instruments in a UK adult mental health setting. How frequently does this occur and how is this thought about?	adult mental health; harmonic instrument; music therapist	Research (MA)		Feb-12	Mar-12	P22-RMSP	Available	cerita.smith@bnu.gom.ac.uk	
McCarthy, Claire	Queen Margaret University	Reviewing the state of the voice in music therapy: An exploratory investigation into clinicians' application of the voice in music therapy practice.	voice; vocalising; application; primary instrument; music therapy	Research (MA)		Feb-12	May-12	P23-RMSP	Available	10004110@qmu.ac.uk	
Gill, Sarah	Roehampton University	Changing Tracks: An Exploration into the Use of Music Recording and Editing Software in Music Therapy in the UK	music technology; software; recording; editing; computers	Research (MA)		Apr-12	Jun-12	P24-RMSP	Available	sgill17@roehampton.ac.uk	
Austin, Veronica		Evaluating the Impact of Music Therapy for Emotional Well-being	evaluation tool; impact; expectations; needs analysis; process; trial	Evaluation		May-12	Oct-12	P25-EP	Available	veronica.austin@roehampton.ac.uk	
Flower, Claire	Nordoff Robbins, City University London	Music therapy trials with child, parent and therapist; exploring experiences and musical structure	child; parent; music; therapy; trio; microanalysis	Research (PhD)		May-12	Oct-12	P26-PSP	Available	claire.flower@roehampton.ac.uk	
Taris, Giorgos	Nordoff Robbins, City University London	Exploring Music Therapists' Perceptions of Spirituality and Music Therapy	spirituality; music therapy; perceptions; online survey	Research (PhD)		Jun-12	Dec-12	P27-PSP	Available	giorgos.taris@roehampton.ac.uk	
Jones, Kate	Roehampton University	Developing a theoretical framework for the use of psychodynamic Music Therapy in the treatment of Selective Mutism in children with English as an additional language: a heuristic case study	selective mutism; music therapy; heuristic case study	Research (MA)		Oct-08	May-10	P28-RMSP	Available	kate.jones@roehampton.ac.uk	
Jones, Kate	Anglia Ruskin University	Evaluating a theoretical framework for the use of Music Therapy in the treatment of Selective Mutism in young children: a multiple case study.	selective mutism; music therapy; multiple case study	Research (PhD)		Oct-12	Jul-05	P29-PSP	Available	kate.jones@ar.ac.uk	
Hsu, Ming Hung	Methodist Homes, Anglia Ruskin University	Music therapy in Methodist Homes: An investigation into the efficacy of the impact of a music therapy programme on caring for people with dementia who have behavioural problems	music therapy; dementia	Research		Jan-13	Sep-13	P30-RP	Available	ming.hung@ar.ac.uk	
Habron, John & Jesuthasan, Jang	Coventry University and Guy's and St Thomas' NHS Foundation Trust	Music in Mind: Manchester Camerata's Music Therapy project for people with dementia and their carers, family and spouses	group therapy; dementia; carers; families; orchestral musicians; quality of life	Research		Jun-12	Jun-13	P31-PR	Available	john.habron@coventry.ac.uk	
Alford, Thomas	Guildhall School of music and Drama	Is mindfulness training a useful technique in the training of music therapists?	music therapy; mindfulness; training	Research (MA)		Feb-12	Apr-12	P32-RMSP	Not available	thomas.alford@yahoo.co.uk	
Badr, Alrazan	Queen Margaret University	An evaluation of the role of Arts Therapies for children with Attention Deficit Hyperactive Disorder (ADHD) in primary schools in the Kingdom of Saudi Arabia (KSA)	ADHD; Arts Therapies; Children; Culturally sensitive	Research (PhD)		Jul-05	Jul-05	P33-PSP	Available	alrazan@qmu.ac.uk	
Brown, Hannah	Bath Spa University	Music therapy in hospices: the views of music therapists	music; therapy; hospice; palliative care; views of therapists	Survey (UK)		Dec-12	Mar-13	P34-SUK	Available	hannah.brown@bathspa.ac.uk	
Melhus, Ruth & Beuzeboc, Catherine	Camden & Islington NHS Foundation Trust	'Let Them Bring Their Own Song' Developing relationships through involving nursing home staff in Music Therapy and Dance Movement Therapy groups for people with dementia	music therapy; dance movement therapy; dementia; relationships; staff	Research		Mar-07	Aug-08	P35-RP	Not available	ruth.melhus@btinternet.com	
Melhus, Ruth	Soundwell Music Therapy Trust	Music therapy on a dementia assessment ward: an approach to evaluation	music therapy group; dementia; assessment; evaluation	Evaluation		Nov-11	Jan-13	P36-EP	Not available	ruth.melhus@btinternet.com	
Safield, Colette & Hayward, Guy	Sing & Grow UK, Essex County Council	An evaluation of the Sing & Grow Programme within Adoption	music therapy; attachment; adoption	Research		Jan-13	Jun-13	P37-RP	Not available	colette.safield@essexandgrow.org.uk	
Parkins, April	University of Edinburgh	Regarding 'The Tea-House of the August Moon': Therapeutic work with a client with a severe mental illness	music therapy; case study; schizophrenia; symbolism; creativity; Klein; Winnicott	Research (MA)		Sep-07	Aug-08	P38-RMSP	Not available	april@btinternet.com	
Walsh, Silvia	Limerick Institute of Technology	Professional attitudes towards the effects music therapy has on people with disabilities	music therapy; disabilities; benefits	Research (MA)		Nov-12	Mar-13	P39-RMSP	Not available	0002988@limerick.ac.uk	
Ponter, S. (P)	Queen's University Belfast	A Randomised Controlled Trial Measuring the Effects of Music Therapy on the Communicative Skills of Children and Adolescents with Behavioural and Emotional Problems and / or Pervasive Developmental Disorders	child and adolescent mental health; communication skills; music therapy; randomized controlled trial	Research	Ponter, S., Holmes, V., McLaughlin, K., Lynn, F., Cardwell, C., Braiden, H. J., Doran, J. & Rogin, S. (2012) Music in mind, a randomized controlled trial of music therapy for young people with behavioural and emotional problems: study protocol. Journal of Advanced Nursing 00(0), 000-000. doi: 10.1111/j.1365-2648.2011.05936.x	Oct-10	Jun-14	P40-RP	Not available	"Tracey McConeil" cc.mcconeil@qub.ac.uk	
Chan, June	Queen Margaret University	Cross-cultural differences in the coping style of music therapists treating survivors of torture and trauma	coping style; stress; cross-cultural; trauma; torture; music therapist	Research (MA)		Feb-13	May-13	P41-RMSP	Available	11007387@qmu.ac.uk	
Tomlinson, Jo	Cambridgeshire Music	To investigate how music therapy can help the development of vocal and verbal skills in young children with special needs, and whether sharing music therapy skills/approach with Teaching Assistants can further support this development	music therapy for young children; verbal development; teaching assistants	Research		Sep-12	Jul-13	P42-RP	Not available	tomlinsonj@yahoo.co.uk	
Taylor, Nicola	University of Surrey	Music therapy and the therapeutic relationship: An interpretative phenomenological analysis	music therapy; therapeutic relationship	Research (PhD)		Feb-13	Sep-13	P43-PSP	Available	ni.taylor@surrey.ac.uk	
Pool, Jonathan	Anglia Ruskin University	Brief group music therapy for acquired brain injury	brief group music therapy; acquired brain injury; cognition; emotional needs	Research (PhD)		Jan-10	Spring 2013	P44-PSP	Not available	jonathan.pool@ar.ac.uk	
Rizkallah, Marianne	Guildhall School of Music and Drama	An exploration of how music therapy is practised across differing stages of dementia	music therapy; dementia; music therapy and dementia	Research (MA)		Feb-13	Apr-13	P45-RMSP	Available	m.c.rizkallah@gmail.com	
Elias, Holly	University of Glamorgan	Identifying and Assessing Stressors and Wellbeing levels of Qualified Therapists and Counsellors and Trainee Therapists and Counsellors in the UK	stressors; coping mechanisms; wellbeing levels	Research (Undergraduate)		Oct-12	Mar-13	P46-RMSP	Available	10025081@glam.ac.uk	
Stalley, Rachel	Reading University	Music therapists role in enhancing communication and relationships for autistic children	music therapist; role; autistic children	Research		Jan-13	Mar-13	P47-RP	Not available	rachel.stalley@btinternet.com	

Street, Alex	Anglia Ruskin University	Instrumental music playing for the rehabilitation of upper limb function in stroke patients following completion of community occupational therapy: a randomised controlled clinical trial	neurologic music therapy; stroke; instrumental music performance	Research (PhD)	Street, A. (2012). Combining functional and psychoanalytic techniques, using Rhythmic Auditory Stimulation (RAS) and songwriting to treat a man with a traumatic brain injury. <i>Voices: A World Forum for Music Therapy</i> , Vol 12, No 3. Retrieved from: https://nmtm.lib.no/index.php/voices/article/view/Article673	Sep-12	Sep-15	P48-P50	Available	alexstreet@yahoo.com
Meiritt, Natasha	University of Southampton	How Does a Client's Previous Experience of Musical Training Impact the Process of Music Therapy?	Dissertation Questionnaire, Music Therapy with Musician Clients	Research (Undergraduate)		Feb-13	Mar-13	P49-P50	Not available	nam2910@post.ac.uk
