Creative Arts Therapy CPD: Innovative practice, research and supervision

Our exciting and innovative post-qualifying professional development (CPD) programme offers a flexible modular course that aims to deepen knowledge, develop innovation and integrate creative approaches used in contemporary arts therapy practice. The course is designed to extend skills and share expertise between practising arts therapists; promote and evaluate research methodologies; reflect on and critically evaluate current practice across the arts therapies professions and embed new learning in our roles as arts therapists and supervisors.

Completion of two modules will receive a *CPD certificate of attendance*. Completion of all 6 modules will receive *additional certification in supervisory practice* with an *additional certificate for the research component*.

Courses start in May 2021 and run through to April 2022. For full details and bookings, please visit:
