

## A Call For Presentations and Workshops

### *Frontiers - All Ireland Arts Therapies/Creative Arts Therapies Convocation*

A showcase of art, dance-movement, drama and music therapies in action.

Saturday, October 14th  
Technological University Dublin (TU Dublin)  
East Quad  
Grangegorman Campus

This is an opportunity to facilitate interactive presentations and workshops through collaboration and innovation.

Morning presentations will be one hour in length and afternoon experiential workshops will be one and half hours in length. Collaborations between arts therapists are particularly encouraged. We suggest a focus on best practice, research and innovative work across the lifespan in relation to the crucial questions and situations facing society today.

- Living in post lockdown society in Ireland and Northern Ireland
- Working in schools
- Addressing homelessness
- Exploring potential in communities
- Working with addictions
- Addressing the role of social justice and the impact of climate change
- Integrating Trauma Informed Practices

The list is not exhaustive and we welcome your suggestions.

If you have an idea you wish to forward for a presentation or a workshop, please send your initial proposal to Pamela Whitaker ([p.whitaker@ulster.ac.uk](mailto:p.whitaker@ulster.ac.uk)) before **June 30th**. You will then receive an application form to detail your workshop or presentation proposal.
